# OUR FOUNDER

**B**ryan is a globally recognized strategist and thought leader who founded Bryghtpath LLC in 2014 after a 21 year career at Target Corporation where he built and led the retailer's Global Crisis Management & Business Continuity function. Under his leadership, Target received numerous awards from the Federal Emergency Management Agency (FEMA), the International Association of Emergency Managers, and the Business Continuity Institute.

A valued industry leader, Bryan previously served as a board member and Chair of the Private Sector Committee for the National Emergency Management Association (2011 – 2013) and as the Vice Chairman of the Retail Industry Leaders Association's Disaster Recovery and Preparedness Committee. In these roles, Bryan worked closely with FEMA to develop the Private Sector Representative position in FEMA's Office of the Private Sector and with leaders across state and federal government, including the US Department of Homeland Security and the White House, to build stronger connections between the public and private sectors.

Bryan holds multiple professional certifications in business continuity, emergency management, information security, project management, and physical security.

He is a member of the International Association of Professional Security Consultants, the Private Sector Committee of the National Emergency Management Association, and the Royal Institute of International Affairs (Chatham House, London).

Bryan holds a Bachelor of Science in Criminal Justice Administration from the University of Phoenix and a Masters in Business Administration (MBA) from the University of Minnesota's Carlson School of Management. He is a graduate of the National Preparedness Leadership Initiative Program at Harvard University's JFK School of Government.

# INTELLIGENCE & GLOBAL SECURITY STRATEGIES

## Developing global situational awareness through intelligence

Organizations today often operate globally – ranging from low-risk environments like North America - to moderate and high risk environments such as portions of Africa and Asia. In today's hyper-connected global economy, it's critical to quickly become aware as new threats emerge and security situations evolve around the world.

While the risks of unforeseen events can never fully be eliminated, Bryghtpath can help ensure the safety and security of your employees, travelers, and assets globally.

Bryghtpath has designed and implemented travel risk and security programs, intelligence strategies and global security operations centers for the world's most admired brand, and directly led security evacuations and recovery efforts in Haiti, East Asia, Africa, and India.

- **Executive Consultancy** on implementing or maturing an intelligence, global security, or travel risk program
- **Facility & process design** for global security operations centers, intelligence centers, and emergency operations centers
- **Strategic reviews** of intelligence, global security, and travel risk programs
- **Security advisors** during an immediate security situation, as a member or leader of your security or intelligence team
- **Public-private partnership support** for information sharing and best practices with international, federal, and state agencies (INTERPOL, US State Department OSAC, DHS, FBI, and others)
- **Partnerships** with service providers, such as intelligence providers, security evacuation firms and global security specialists

# EMERGENCY PLANNING & EXERCISES

## Preparing for the worst

Events such as a workplace violence incident, a fire, or a disruptive protest in your headquarters lobby can lead to serious consequences for your team and damage to your reputation if not properly handled.

While incidents such as these can never be eliminated, Bryghtpath can help you to develop plans, training, and exercises to ensure that your team is well-prepared.

Bryghtpath has developed active shooter plans and training for the Fortune 100, detailed life safety processes for major manufacturers, and numerous protocols for international incidents for companies globally. We've designed and facilitated exercises for a wide-variety of scenarios with detailed after-action reviews to help our clients improve.

Our management team has been trained by the US Department of Homeland Security (DHS) and the Federal Emergency Management Agency's Emergency Management Institute (FEMA EMI) in the Homeland Security Exercise & Evaluation Program (HSEEP-1) requirements for exercise programs.

- **Strategic reviews** of current emergency plans and procedures
- **Emergency planning** for active shooter incidents, life safety situations, and other situations
- **Assistance** evaluating threats of workplace violence, violent protests, or other disruptions
- **Exercise development and facilitation** to practice emergency plans and procedures
